Success Skills

JA is committed to providing young people with the skillset and mindset they need to succeed today and build thriving communities tomorrow.

By participating in JA's newly updated Success Skills program, students in grades 8-10 will identify and build a toolkit of transferable skills that will enable them to increase resilience and improve outcomes through challenging situations.

Volunteer-Led Programs

- JA volunteer(s) facilitate the program activities adding their industry knowledge and perspective to the lessons
- Programs are offered in-class
- Teacher manages access and supervises students during the program
- Timing and duration of program is flexible

Teacher-Led Programs

- Teachers can facilitate the program activities and lessons directly with their students or monitor their students while they work independently
- JA will provide support and access to the program resources
- Teachers can lead the program at their own pace
- Programs usually take 2-6 hours to complete

After completing the program, students will be prepared to:

- Demonstrate awareness of self-efficacy in skill attainment and career development
- Identify specific skills required for effective collaboration in short and long-term situations
- Understand the fundamentals of critical thinking and problem solving skills
- Use communication techniques to enhance their communication with others
- Investigate tools for conflict resolution and how to come to a consensus with those who have differing ideas
- Develop career paths for jobs in different industries and map out required skills

Skills introduced in this program include:

perseverance - self-belief - responsibility - goal orientation - values - excellence - innovation - responsibility
